OBJECTIVE

Data analyst keenly focused on the usability of data. Takes unorganized, complex data sets and translates them into precise dashboards designed to support leadership in reaching actionable data-driven decisions. Brings curiosity and a sharp attention to detail to all project aspects, creating new ways for teams to fully utilize the data they rely on.

HIGHLIGHTS

- **Data Curation.** Maintain 525+ healthcare database profiles from 73 countries; gather and verify data via direct outreach, publications, and web research to ensure data integrity.
- **DataCamp Certified Data Analyst Associate.**
- **Cost Reduction.** Audited software pricing during renewals against non-profit resource sites. Cut annual software overhead by 80% in 2025; migrated cloud storage to SharePoint (\$0 cost) and secured TechSoup pricing for QuickBooks, Zoom, Norton, and Adobe products.
- **Operational Savings.** Reduced company expenses by re-negotiating contracts and finding alternatives. Key wins included: 72% reduction in web hosting, 60% reduction in mail machine rates, 75% reduction in local postage, and 77% reduction in marketing flash drives.
- **Portfolio Projects.** 1. Identified factors to reduce customer churn of ~100K e-commerce orders via SQL. 2. Recommended design elements for a new boardgame based on characteristics of the highest-rated boardgames using Power Query and DAX in Excel. Projects include an interactive Tableau dashboard.

CORE COMPETENCIES

Data Analysis & Reporting	Technology Leadership	Operations/Project Leadership
• Data Curation • Data Transformation • Tableau/BI Reporting • SQL Queries/Reporting • Data Storytelling	• Software & Hardware Recommendations • CRM/Salesforce Leader • Quality Control • Web & IT Support	• Operational Analytics • Cost Reduction • Efficiency Mindset • Project Coordination • Intern Mentor

EXPERIENCE

Data Analyst and Project Manager, DGI Center for Health Research and Education, LLC

November 2009 to Present

Enhance client interactions and reduce response time regarding data diversity and availability by automating monthly database status reports with advanced Excel functions.

- Use pivot tables to convert datasets from database managers and web portals to standardized fields.
- Prioritize website bug fixes and feature requests, design mockups, and perform User Acceptance Testing (UAT) before pushing to the production environment.
- Mitigated unplanned extended site outage using Claude AI, HTML, and CSS to troubleshoot and remediate issues, restoring full functionality within hours.
- Manage marketing contact lists, design and deploy marketing campaigns via LinkedIn and Constant Contact, followed by analytics for each campaign.
- Perform live demos, market to potential clients, and discuss benefits with database representatives at scientific conferences.
- Reduced email marketing costs 43% by correcting misleading, bloated email statistics triggered by recipients' email security returning invalid data.
- Produced video tutorials, detailing essential website operations, from search, sign up, and collection creation, as well as other basic functions of the website.

IT Support Specialist and E-Learning Developer, Pharmaceutical Education and Research Institute Inc.

February 2020 – December 2025

Maintained and updated e-learning programs with industry experts using Adobe Captivate and iSpring Suite.

- Built and optimized WordPress webpages using HTML, CSS, and Elementor.
- Reduced the reliance on external IT contractors by resolving technical issues, performing system upgrades, researching and implementing software alternatives in-house.
- Secured a \$2,000 COVID Recovery grant via Benevity to modernize hardware and software.
- Saved \$2,000/year switching e-learning platforms.
- Designed and deployed marketing campaigns via LinkedIn and Constant Contact.
- Reduced webinar speaker issues by conducting preparatory sessions to familiarize them with the platform in advance of their events.

Specialist in Pharmacovigilance, Epidemiology & Risk Management (PER), PharmaLex US Corp / The Degge Group

July 2008 – February 2020

Verified data accuracy, efficiently formatted deliverables for drug safety & epidemiology projects. Managing data entry, literature retrieval, and document preparation for pharmaceutical regulatory and research projects.

- Managed Salesforce lead intake and maintained a library of posters, case studies, and capabilities.
- Improved sales funnel and 'call to action' links from user behavior in Google Analytics and Webtrends.
- Improved workflow efficiency by teaching best practices via 'Tips and Tricks' presentations to office staff on software shortcuts, functions, and capabilities.
- Reduced time formatting deliverables from hours to minutes by programming Excel macros.
- Saved hours of data scraping by implementing a keyword review method of adverse event reports.

Marketing Research Assistant, Centrac DC

January 2007 – July 2008

Conducted quantitative and qualitative analysis for marketing research studies, preparing actionable reports in Excel and PowerPoint.

- Programmed and tested online surveys' branching logic and compiled survey data for client deliverables.
- Prepared and cleaned databases, supporting statistical analysis of market research data.
